

LUKE® II

Multi-Space Pay Station

Public and private parking operators are realizing the benefits of multi-space pay stations: increased revenue, reduced operational costs, and superior customer service, to name just a few. Consumers also enjoy the added convenience, diverse payment options, and ease of use provided by pay stations. The **LUKE® II** pay station is highly secure, flexible, and suitable for both on- and off-street deployments. LUKE II fulfills customer service expectations and delivers superior performance and significant contributions to operators' top and bottom line.

.....

LUKE II Features for Consumers

- Range of convenient payment options, such as coins, bills, credit cards, smart cards, value cards, campus cards, coupons, and Pay-by-Phone services
- Contactless payments for rapid parking transactions
- Extend-by-Phone service provides expiry reminders and the ability to add time via mobile phone
- Large color screen that is easy to read
- Prompts in multiple languages
- Ability to pay for parking or add time using any pay station in the system
- Coin escrow refunds consumers' money upon a cancelled transaction
- 38-key full alphanumeric keypad for easy license plate entry
- Easily recognizable design identifies machine as a parking pay station

LUKE II Features for Parking Operators

- Separate maintenance and collections compartments for enhanced security
 - Theft-resistant design to protect coins, bills, and internal components
 - Enhanced locking mechanism and electronic lock support for added security
 - PCI compliant and PA-DSS validated system ensures credit card data security
 - Pay-and-Display, Pay-by-Space, and Pay-by-License Plate on the same pay station
 - Remote configuration of rates and policies saves time and money
 - Integration with leading parking technology partners for a complete solution
 - Flexible rate structures and diverse payment options can increase revenue
 - Reduced maintenance and collections costs
 - Real-time credit card processing to reduce processing fees and eliminate bad debt
 - Real-time reporting and alarming
 - Complete audit trail and rich analytics
-

Data Intelligence Platform

Parking is more than just pay stations, and **Digital Payment Technologies®** (DPT) believes that intelligent parking management yields superior results. To that end, DPT built the **Digital Iris™** data intelligence platform that combines operational insight with interactive metrics and data visualization, intuitive pay station mapping, and automated reporting. Designed for everyone in your organization, Digital Iris provides secure and actionable data to the right people at the right time. With personalized dashboards, over 90 available metrics and more than 3,000 widget combinations, Digital Iris empowers you and your field personnel to make informed decisions that increase efficiencies, productivity, and the bottom line.
